

Southern Counties Veterinary Specialists Price Guide

Fees include VAT @20% Valid from 1st January 2012

INTERNAL MEDICINE

Fees include initial consultation, hospitalisation and investigations typical to the condition. Consideration should be made for cases requiring surgical intervention, high dependency and intensive care including prolonged periods of hospitalisation, as these will incur further costs.

Consultations

Initial	£240.00
Follow-up (Routine)	£110.00
Follow-up (Complex case review)	£160.00
Emergency supplement	£112.00

Pyrexia of unknown origin	£1200-3000
----------------------------------	------------

Chronic Disease i.e. weight loss	£1500-2500
---	------------

Gastrointestinal disease

Oesophageal or gastric foreign body removal (endoscopic)	£1100-1600
Chronic diarrhoea / vomiting (incl. blood work, ultrasound and endoscopy)	£1700-2400
Upper and lower GI endoscopy	£2200-2900

Jaundice/hepatic investigation (incl. blood work, ultrasound and ultrasound guided biopsy)	£1500-2500
--	------------

Azotaemia/renal disease investigation

Chronic renal failure (incl. clearance tests)	£1200-2500
Renal biopsy	£750-850
Acute renal failure	Up to £4500
Lower urinary tract disease (including cystoscopy)	£1700-2000

Polyuria/polydipsia & endocrine disease

Preliminary investigation incl. imaging, hormonal tests, GFR	£1300-2500
Management of diabetes incl. continuous glucose monitoring for 48-72hrs	£2000-2400

Anaemia/thrombocytopenia

Preliminary investigation (incl. Imaging, bone marrow biopsy and up to 1 unit of blood)	£1700-2700
Acute haematological disease e.g. collapsed IMHA	£3000-5000

DERMATOLOGY

Consultations

Initial	£240.00
Follow-up	£110.00

CARDIOLOGY

Consultations

Initial	£210.00
Follow-up	£110.00
Echocardiography only consultation	£316.60

Surgery / procedures (not incl. diagnostic investigation)

PDA ligation / pericardectomy / lung lobectomy	See soft tissue surgery
Pericardiocentesis	£450-550

Investigations

Heart murmur	£450-900
Arrhythmia	£530-1180
Syncope	£650-1180
Exercise intolerance / poor performance	£650-1640
Cough investigation	£650-1380
Dyspnoea	£650-1380

NEUROLOGY

Consultations

Initial	£210.00
Follow-up	£110.00
Emergency supplement	£112.00

Surgery

Thoracolumbar hemilaminectomy <15Kg ²	£2700
Thoracolumbar hemilaminectomy >15Kg ²	£3200
Ventral slot ²	£3000-3500
Seizure/ vestibular/ brain disease investigation (incl. MRI)	£2400-3000
Neuromuscular disease investigation (consultation, EMG/NCV, x-rays, muscle biopsy)	£2500-3000
EMG (excludes sedation/ GA)	£199.00
NCV (excludes sedation/ GA)	£260.00

BAER hearing test (brainstem auditory evoked response) performed by neurologist ³	£48 per animal
---	----------------

¹ fixed price procedure

² fee includes consultation, imaging as required (excluding MRI), surgery and two nights' hospitalisation with intensive nursing, bladder management and physiotherapy

³ a fee supplement of £25 will be charged should sedation/general anaesthesia be required

Southern Counties Veterinary Specialist Price Guide

Fees include VAT @20% Valid from 1st January 2012

HOSPITALISATION

Hospitalisation and nursing care	
24 hours hospitalisation including low dependency 24 hour nursing care	£55—105
24 hours hospitalisation including high dependency 24 hour nursing care	£115—160
24 hours hospitalisation including intensive 24 hour nursing care	£250—300
Critical care (includes hospitalisation, intensive nursing, fluid therapy, advanced monitoring, BP, telemetric ECG, urine output, calorie balance, tube care, wound care)	£550—800 / 24 hrs

PHYSIOTHERAPY

Physiotherapy sessions are conducted by one of our two full-time physiotherapists and involve multiple cutting edge physiotherapy modalities including underwater treadmill.

Initial consultation	£90.00
Single physiotherapy session	£44.00
10 x physiotherapy sessions (paid in advance)	£396 (incl. 10% discount)
Set up patient treatment plan (incl. 24hrs initial treatment)	£117.00
Physiotherapy treatment on in-patient over 24hrs (routine)	£54.00
Physiotherapy treatment on in-patient over 24hrs (intensive)	£90.00
Single TENS / NMES session	£40.00
Single Ultrasound session	£40.00
Single Acupuncture session	£50.00

KITTEN/PUPPY SCREENING TESTS

BAER hearing test for kittens/puppies (performed by nurse) ³	£33.70 per animal
PennHIP hip laxity scoring	see website for details
Cardiac auscultation screening for congenital heart defects	see website for details

IMAGING

Computed tomography	
CT external referral (incl. sedation/ GA and radiologist's report) single area	£625-850
CT external referral (incl. sedation/ GA and radiologist's report) double area	£825-1200
Magnetic resonance imaging	
MRI external referral (incl. GA and radiologist's report) single area	£1702.00
MRI external referral (incl. GA and radiologist's report) double area	£2102.00
Gadolinium contrast	£99.00
Imaging reports	
Interpretation of referred radiographs - verbal report	free of charge
Interpretation of referred radiographs - written report	£54.00

Ultrasound (These prices do not include sedation or GA)	
Initial abdominal scan	£360
Follow-up abdominal scan	£265
None Abdomen	£265
Ultrasound guided FNA—1st	£80
Ultrasound guided FNA—Additional	£40
Ultrasound guided trucut biopsy	£175
Abdominocentesis	£80
Thoracocentesis	£80
Thoracic drainage	£265

¹ fixed price procedure
² fee includes consultation, imaging as required (excluding MRI), surgery and two nights' hospitalisation with intensive nursing, bladder management and physiotherapy
³ a fee supplement of £25 will be charged should sedation/general anaesthesia be required
